| 04/2021 – present | Bachelor of Science — Applied Computer Science
<i>Hochschule für Technik und Wirtschaft (HTW) Berlin</i> <ul style="list-style-type: none">Current grade average: 2.5 (German scale) |
| 08/2020 – 01/2021 | Studienkolleg, T-Kurs (technical preparatory course)
<i>Ming Cheng Institute at Hochschule Merseburg, Halle (Saale)</i> <ul style="list-style-type: none">Final grade: 2.4 (German scale) |
| 11/2017 – 07/2018 | Computer Science
<i>The National University, Sana'a, Yemen</i> |

PROFESSIONAL AND PRACTICAL EXPERIENCE

- | | |
|-------------------|---|
| 02/2026 – 05/2026 | Internship — System integration
<i>think3ddd, Berlin</i> <ul style="list-style-type: none">Set up and tested a secured Supabase Studio environment on Cloudron using Docker and an Nginx reverse proxy.Worked with PostgreSQL, Redis, Django, Linux and GitLab CI/CD across internal web and backend systems.Analysed logs and performance problems, and carried out structured technical troubleshooting.Created and adapted deployment configurations and technical documentation. |
| 01/2020 – present | Assistant
<i>Persos Personal Services UG, Berlin</i> |

RELEVANT PROJECTS

- | | |
|-------------------|--|
| 2026 | Body Explorer — digital learning and assistance system
<i>HTW Berlin Team project</i> <ul style="list-style-type: none">Web-based prototype for recognising body parts and gestures via webcam and MediaPipe.Designed a multi-layered system architecture running from camera input through perception and interpretation to the user interface.Technologies: JavaScript, HTML/CSS, MediaPipe Pose/Face/Hands, Webcam APIs.Team project organisation with GitHub and Kanban; contributed to integration and project management. |
| 04/2023 – 06/2023 | Sustainability Website Berlin |

HTW Berlin

- Developed a website with an interactive map of sustainable locations in Berlin.
- Role-based functions for managing and displaying locations.
- Technologies: HTML, CSS, JavaScript, Node.js, MongoDB.

10/2022 – 01/2023

Book Collection CLI

HTW Berlin

- Java application for managing book collections using a linked list and sorting algorithms.
- Technologies: Java, CLI, Comparator interface, data structures and algorithms.

TECHNICAL SKILLS

Programming: Java, JavaScript, C, HTML, CSS

Web and backend: Node.js, Django, Nginx, REST and web technologies

Databases: PostgreSQL, SQL, MongoDB, Redis

DevOps and systems: Docker, Cloudron, GitLab CI/CD, Linux, Windows

Computer vision / AI-adjacent: MediaPipe Pose, Face and Hands; landmark-based interaction

Project work: Git, GitHub, Kanban, Scrum fundamentals, technical documentation

Office: Microsoft Office — very good

LANGUAGES

Arabic: Native speaker | **German:** Business fluent | **English:** Good command
